Let's Meet

**LM** Let's Meet

About Us

Trever Cramer
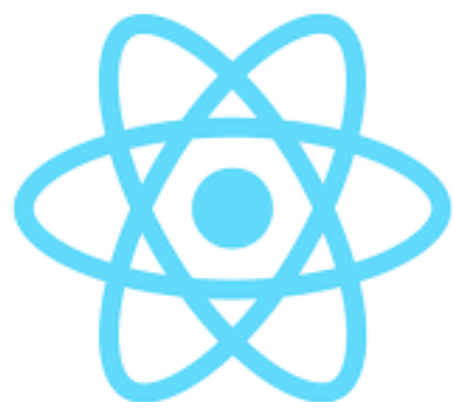

The Problem

LM Let's Meet

- With the Covid-19 pandemic, society has grown to be more isolating than ever before. With Covid-19 hopefully being in the rear-view mirror, people can start to go out again and socialize

- Let's Meet is a website where users can find an event to attend with others who have similar interest. User can organize events or simply register to attend other user's events. The website will host events such as language classes, sporting events, music lessons and so much more

Our Database

Technologies Used

The Experience

Blockers

- Access to variables throughout the front-end.
- Model Decisions.

Solutions

- Using multiple fetch request to obtain the correct variables.
- Multiple bridge models.
